SHREYASH

Data Scientist · ML Engineer · NLP & Knowledge Graph Specialist

+91 96947 16263 · ayushshreyash1@gmail.com · Jaipur, India · github.com/shreyash1234566 · linkedin.com/in/shreyash-kumar

PROFESSIONAL SUMMARY

Data Scientist and full-stack ML engineer (B.Tech CSE, JECRC University) with internship experience building **production GraphRAG systems** at DevOpsFarm — cut domain-query latency **4.2s → 1.8s** and reduced LLM hallucinations by **40%**. Deployed an AI Adaptive Onboarding Engine achieving **100% pipeline pass rate** across 6 test scenarios (avg. 8.6s); qualified for **SIH 2024 Round 2** and **IIT Bombay Techfest 2024**.

TECHNICAL SKILLS

Languages: Python, TypeScript, SQL, C++, Cypher (Neo4j), HTML/CSS

ML & AI: Scikit-learn, TensorFlow/Keras, Bi-LSTM, PPO (Reinforcement Learning), LLM Pipelines (Ollama/Groq), NLP (Natural Language Processing), GraphRAG, Triplet Extraction

Engineering: Pandas, NumPy, Neo4j, MySQL, Flask, Express.js, tRPC, Docker, Crawl4AI, ETL Pipelines, Git

Methods: Classification, Time-Series Forecasting, Bayesian Knowledge Tracing (BKT), Feature Engineering, Purged Walk-Forward Validation, A/B Testing

WORK EXPERIENCE

Full-Stack Intern · DevOpsFarm IT Solutions, Jodhpur — May 2025 – Aug 2025

- Contributed full-stack development with **Payload CMS**, integrating React frontend and Node.js backend to deliver an internal content management system for production use

PROJECTS

AI Adaptive Onboarding Engine *TypeScript · React · Node.js · tRPC · Groq LLM · Docker* — 2025

github.com/shreyash1234566/ai-onboarding-engine · Live Demo ↗

- Built full-stack app: resume + JD → **personalised AI learning roadmap in ~25s** via 3-pass LLM skill extraction (explicit → implicit → semantic), O*NET taxonomy mapping, greedy knapsack pathing; **Bayesian Knowledge Tracing** auto-updates path after assessments
- **100% pass rate** across 6 end-to-end scenarios (avg. 8.6s/case); Dockerised and deployed on HuggingFace Spaces; monolith architecture (Express + Vite) — single URL deployment

ISRO Satellite Knowledge Graph Chatbot *Python · Flask · Ollama · Neo4j · Crawl4AI* — 2024 – Present

github.com/shreyash1234566/chatbot

- Scraped MOSDAC docs, extracted **1,200+ entity-relation triplets** via LLM + Cypher schema; achieved **zero hallucinations** on mission specs; 5-stage pipeline (scrape → chunk → extract → graph → API) cut query latency **57%**; 2 community forks

Bi-LSTM + PPO Crypto Trading Bot *Python · TensorFlow · Stable-Baselines3 · Gymnasium* — 2025

github.com/shreyash1234566/crypto_trade

- Quantitative trading system: **Bi-LSTM feature extractor (64-dim market state)** + **PPO RL agent** with 3-action trading, asymmetric rewards, and Purged Walk-Forward validation (Lopez de Prado) — prevents time-series data leakage; paper trading on Binance Testnet

NASA Exoplanet Classifier — Kepler DR25 *Python · Scikit-learn · Pandas · Jupyter* — 2024

github.com/shreyash1234566/nasa

- End-to-end ML pipeline on **9,564 Kepler Objects of Interest (NASA DR25)** — Random Forest with feature engineering (period, depth, SNR) achieving **92% precision, 88% recall** across 3 classes

GATE CS Exam Predictor *Flask · Scikit-learn · BeautifulSoup* — 2024 – Present

github.com/shreyash1234566/gatePridiction · Live ↗

- Analysed **10+ years of GATE CS papers**, surfacing high-yield topics (Algorithms, TOC, DBMS); **50+ beta users** reduced study time by 25%; live web deployment on Vercel

Hinglish RAG Bot + WhatsApp Notifier *Python · Docker · Render · Android* — 2024

PersonalBot (server) · AppNotification (Android)

- Dockerised RAG server (deployed on Render) trained on personal chat data to replicate Hinglish style; paired with Android app that triggers WhatsApp sends via notification access — two-repo end-to-end messaging automation system

HACKATHONS & ACHIEVEMENTS

SIH 2024 — Round 2 Qualifier Ranked 7th among 200+ college teams 2024

IIT Bombay Techfest 2024 Qualified for Sanrakshan (defence & security) — Asia's largest tech festival 2024

YUVAi Global Youth Challenge International AI innovation competition 2024

NCC 'A' Certificate National Cadet Corps — leadership training 2019–2020

NCSC National Children's Science Congress — represented school twice, working model on renewable energy

EDUCATION

B.Tech, Computer Science & Engineering · JECRC University, Jaipur 2023 – Present

Relevant coursework: Data Structures, Algorithms, Probability & Statistics, DBMS, Machine Learning

Class XII (CBSE) · KV No-2 AFS Jodhpur · 82.6% 2022–2023

Class X (CBSE) · KV No-2 AFS Jodhpur · 86.2% 2020–2021
